It was a real pleasure to work with this board of executives this past year. This year was exceptionally busy with coming out of Covid and the members of Archery Alberta wanting to get back at it finally. This year we did a lot, we purchased new Danage targets for our Target community, we got to use them at Outdoor Target Championships this year. We also did buy some new Targets for our 3D community, not only did we buy new targets we introduced a new discipline for 3D. ASA has been very successful and accepted by the membership. We also were able to bring back coaching courses this year via Zoom. We had quite a few archers from our province represent Alberta/Canada on the world stage this year. All and all it was a great year for us. Thank you very much Alberta Alberta.

Mike Downham
President, Archery Alberta
