Coaching Report for Archery Alberta – Nov 25, 2022

At the last Annual General Meeting held in December of 2021, the coaching portfolio had sat empty. I, Sarah King was appointed to the position of Coaching Coordinator for Archery Alberta to rebuild the portfolio in 2022 on a 2 year commitment to train new coaches in Alberta and establish a new program to aid in the development of coaches in the province.

As of January 2022 there were no certified or current "Learning Facilitators" in the province to take on the role to instruct new coaches for Beginners and Intermediate archery coaches.

As of June of 2022 we had 3 new Learning Facilitators. 1 Male and 2 Female.

The current list of certified "Core Learning Facilitators" consist of:

- Jude Hooey, VP of Archery Alberta, Coach Evaluator and Learning Facilitator
- Sarah King, Coaching Coordinator, Learning Facilitator
- Caleb Froehlich, Learning Facilitator

The status of current "Certified" coaches as of November 25, 2022 (completed the workshop, evaluation and portfolio, incl. Making Ethical Decisions)[1]

Level	2021	2022
Inst. Of Beginners	18	26
Inst. Of Intermediate	7	8
Comp-Dev	1	1

Out of the coaches that are certified: 57% are Male, 43% are female

The status of current "Trained" coaches as of November 25, 2022 (completed the workshop, evaluation incl. Making Ethical Decisions, excluding portfolio)[2]

Level	2021	2022
Inst. Of Beginners	75	110
Inst. Of Intermediate	17	17
Comp-Dev	1	1

Out of the coaches that are certified: 63.8% are Male, 36.2% are female

1 Current statistics based on the Summary reports for "Certified Status" from the NCCP Locker with only a ±3% variance
2 Current statistics based on the Summary reports for "Trained Status" from the NCCP Locker with only a ±3% variance

The current status for only those classified as “In Training” [3]

Level	2021	2022
Inst. Of Beginners	769	750
Inst. Of Intermediate	219	200
Comp-Dev Introduction	36	35

Out of the coaches that are certified: 61.9% are Male, 38.1% are female

There are currently 1,131 records on the NCCP Locker that are registered in some capacity with Archery in Alberta with some sort of training. Only 988 of of those are listed as ACTIVE.

The criteria is based on a 5 year range from November 25, 2017 to November 25, 2022.

A new mentorship project had been in the works but due to time constraints, it remains unfinished with a projected completion date in early spring of 2023.

I am looking to launch a quarterly newsletter in 2023.

During the 2022 year we were able to run 3 online virtual training courses for Instructor of Beginners (Level 1) Workshops with 21 people who had registered (2 from out of province). Out of the 21, 15 have completed their evaluations, and portfolios as well as their Making Ethical Decisions courses.

I am looking at holding more courses in the new year to accommodate more training for the Level 1 and Level 2.

At present we are working towards training a few more individuals for Core Training for Learning Facilitators, to split the load between areas in the province (South, Central, North)

I have also been compiling a list of current “Certified” coaches to promote and list on the Archery Alberta website. Due to personal life constraints this has been delayed until 2023.

For the most part those who have taken the courses are pleased with the results of the course a d the deliverance of the online method, ease of access and overall content being delivered. Some adjustments have had to be made due to the online environment but nothing that causes a barrier to the courses.

End of Report

Sarah King
Coaching Coordinator, Archery Alberta
